Chief, Research and Development Division
Office of the Chief of Engineers
Department of the Army
Washington 25, D. C.

Dear Colonel Hallock:

During the past fiscal year, as in previous years, the assistance provided this Agency by the United States Army Engineer Research and Development Laboratories, Fort Belvoir, Virginia, has proven to be of great value. The security aspects involved do not permit a detailed resume of the services rendered. However, of particular help on numerous important projects has been that provided by the Demolitions and Fortifications Branch and the Mine Warfare Barrier Branch.

The personnel listed below have been outstanding in their cooperation and their able assistance is deeply appreciated:
